

ONE OF THE GREEKS

So hey my name is Aggeliki ( not Angeliki) and im 16 yo . I was born on march 19<sup>th</sup> 2005 and im the youngest of the family .... I was born in katerini , were I still live till now, with the dream of leaving this city and maybe this country.

## Family

In my family ,as I already said , im the youngest and truth be told, the most spoiled one :) but most of the time its not my fault I mean .. I have two older brothers ,Gianni , whos 21 and studying maths at one of the unis in Thessaloniki , and the other one is Vaggelis , whos 26 and have already finished his uni and served in the military . My mum is Maria and shes 46 years old and my dad is Thanasis 50 years old . So basically we are a family of 5 very sarcastic members ....

## Hobbies

My friends say that im very lazy but its not the truth obviously ... One of the things that makes me less lazy are books , I mean name one person that doesn't like books ( do not I know many of them) but anyways books is my addiction . And then it's the most basic hobby volley ... I mean its something that I really enjoy doing whenever I have free schedule .

We could say that food is one of my hobbies too , rather than a survival need , I love trying new tastes especially the spicy ones and my favorite food is rice with spicy chicken wings

My taste in music is a bit of weird I don't like any Greek songs such as trap , rap or Greek pop but I love the old ones from the 80s and 90s . I also like going out with my friends once a week when and if I have free time and that's because im in one of the last 2 years of my school life which means I have to study really hard if I want to pass in the finals .

Thank you very much if you stayed till the end of this self presentation.....I look forward too meet all the people of this program and that's the end .....

See yaaa😊
