

Hi. I'm Meryem KÜPDİLLİ. I'm 16. I'm from Istanbul and I'm a student in the language classroom of my school. I have just one sister. Her name is Ayşenur. She is 11 and student. My dad is Serhat (41) and he works as a security guard in a company. My mom is Şerife (38) who works as a cook in another company.

My hobbies are going out with my friends, watching movies and TV series, travelling and reading books.

My daily routine is: I wake up at 7 o'clock, get ready and take bus to go to school. My school finishes at 15.30 but some days I have some extra lessons. After school I go back to home and have a rest a little bit. Then I do my homework and study. After dinner sometimes I watch movies or surf on the net. Then I get ready and go bed.

Weekends I do an english course and mostly go out with my friends or my family.

After I finish high school I would like to go university to study English language. I want to be an English-Turkish translator or an English teacher in the future. My favourite subject at school is also English. After university I want to go abroad to work and I want to travel around the world one day.
